ZIONISM SYMPOSIUM CONTINUES IN TRIPOLI

Further Report on Al-Qadhdhafi Address

Tripoli ARNA in English 1140 GMT 27 Jul 76 LD

[Text] Tripoli, July 27, ARNA--Addressing the international seminar on Zionism and racism here yesterday Col Mu'ammarr al-Qadhdhafi spoke of the factual contradictions of world Zionism which was trying to let the world believe that any action against it was regarded as terrorism.

He added: The world confused such a wrong concept when it decided that Zionism was a form of racism and that struggle against racism was legal.

Colonel al-Qadhdhafi asserted that the world confutation of this wrong concept is a marvellous victory of humanity.

Colonel al-Qadhdhafi indicated that the Palestinian people who were expelled from their lands, houses and farms have the right to take up arms and defend their existence and recover their homeland.

He asserted that the Palestinian people have the right to adopt all possible means which may impose defeat on their enemy or enable them to repatriate.

Colonel al-Qadhdhafi pointed out that the whole world should sympathize with the Palestinian people, currently living in a catastrophe.

Colonel al-Qadhdhafi asserted the international seminar on Zionism and racism was held in the Libyan Arab Republic within the framework of the intellectual, scientific and philosophical aspects of the resolution recently adopted by the United Nations.

Colonel al-Qadhdhafi said the whole world had agreed to reject and to fight racist Zionism. This is not our national decision but the decision of the whole world, he added.

Colonel al-Qadhdhafi asserted that the pathway for genuine world peace is by the repatriation of the Palestinian Arab people to their lands usurped by force.

Therefore, the Libyan Arab Republic is providing indefinite support to the Palestinian armed struggle and this is what has worried the Zionists who are trying to distort the Libyan Arab attitude by claiming that L.A.R. is supporting terrorism, Colonel al-Qadhdhafi said.

The revolution leader made it clear that if the Palestinian people's struggle for repatriation to their homeland, usurped in [year indistinct] was regarded as terrorism, then we accept this terrorism and support it.

If the black people's struggle against racism is dubbed as terrorism, we also accept this terrorism and we are not worried about this word.

Colonel al-Qadhdhafi announced that according to the United Nations resolutions, racism had become a common enemy of humanity, everywhere in Palestine, South Africa or Zimbabwe.

SYRIAN-PALESTINIAN ACCORD VIEWED OPTIMISTICALLY

Radio Comment

Damascus Domestic Service in Arabic 1815 GMT 27 Jul 76 JN

[Excerpts] Once again Damascus has proved that it is bigger than the conspiracy and those who planned and implemented it. Damascus is bigger than those who still fan the fire whenever it is about to die out. Today the atmosphere of optimism regarding an agreement between revolutionary Syria and the Palestinian resistance has returned, pushing the Lebanese crisis in the direction of a solution. This optimistic climate dominates events whose results have proved that keeping away from Syria will not be in the interests of liberation, the revolution or progress.

However, what draws attention is that there are certain voices in the Arab arena which claim concern for the restoration of security in Lebanon, opposition to Lebanon's portion and concern for the safety of the Palestinian revolution. And at the same time these voices continue in their attempts to fan the flames, while we know, and all sincere Arabs also know, that extinguishing the fire means the failure of the conspiracy and the triumph of the Arab issue.

The sincere Syrian efforts have borne fruit over the past few days in saving the wounded of Tall az-Za'itar and initiating practical steps towards stopping the fire between the warring parties in Lebanon. There is optimism, although we take into consideration that there are several groups and parties associated with foreign quarters which have planned the conspiracy and with certain Arab quarters which have been delegated to implement the conspiracy. We take into consideration that these parties will not be happy with any attempt aimed at consolidating this atmosphere of optimism and transforming it into concrete reality to save Lebanon, the resistance and the entire Arab issue, because this would destroy the main justification for the existence of these parties, whose influence has increased in the chaos and contradictory stands in the Arab arena.

As-Sadat, Junblatt Obstacles

Damascus SANA in Arabic 1215 GMT 27 Jul 76 NC

[Text] The Syrian-Palestinian encounter began on Thursday along what can be called the road of restoring Syrian-Palestinian cohesion. From the first meeting, the Palestine side said that the discussions took place in a positive atmosphere and will achieve positive results. The Syrian side also said the discussions are taking place in a brotherly spirit to reach a common ground.

AT-TALA'I magazine, issued by the vanguards of the popular liberation war--As-Sa'iqa forces--says naturally this does not mean that there will be no obstacles or spanners thrown into the Syrian-Palestinian works, but nevertheless we are confident of the result, the return of Syrian-Palestinian cohesion.

The magazine stresses that the obstacles began from the first moment of the working meeting in this Syrian-Palestinian encounter, noting that President as-Sadat intentionally practiced the worst forms of encitement while the Syrian and Palestinian sides were meeting. The wrenches thrown into the Syrian-Palestinian works were not only from As-Sadat. There were also those from Kamal Junblatt, who found the Syrian-Palestinian meeting in Damascus the most suitable time to affirm the partition of Lebanon. He raised his "auto-administration" in his areas of influence to the level of "government" and did not raise it to the level of "state," perhaps out of bashfulness.

The paper expresses its confidence and optimism in the return of Syrian-Palestinian struggle unity despite all obstacles, which will be of no consequence.

NORTH AFRICA

He said in the future we will not care about the racist Zionist protests against any action taken against them because they are racists, as agreed by the whole world, and are to be fought everywhere by any means.

Therefore, all actions against the racist Zionism are allowed, legal and carry the support of the whole world.

Colonel al-Qadhdhafi asserted that the United State's support to racism and its persecution of the blacks in America, make it a barbarian, racist, reactionary and very backward state from a humanitarian point of view, despite the fact that she had reached Mars, from a technological point of view.

He added that America's actions were not regarded as progress in human thought and that its technological progress is worth nothing because human values are the basis of life.

Colonel al-Qadhdhafi pointed out that primitive peoples are regarded as progressive and they had more civilisation and human values than the U.S.

Colonel al-Qadhdhafi announced that Arabs, especially the Palestinian people, when they struggle to put an end to Zionism in Palestine, in fact struggle for humanity, because they confront the joint enemy of humanity--racism.

He said when Africa confronts the fascists in South Africa and Zimbabwe, it also fights for humanity to defeat the joint enemy of all peoples.

From now on, he said, all the nations must support the African and the Arab peoples in their struggle until they realise the final victory over racism in the world.

Colonel al-Qadhdhafi summarised the L.A.R.'s point of view regarding the Palestinian issue saying "we regard the Jews living in Palestine in 1947 as nationals similar to Palestinians, the original residents of the country, but we regard those who came to Palestine after occupation and are still coming, as mercenaries who came illegally."

He added that the L.A.R. regards the Jewish immigration as an aggressive action which does not help solve the Palestinian issues and even complicates it, because the arrival of such mercenaries perpetuates occupation and threatens peace.

Colonel al-Qadhdhafi exposed the falsehood of American and Zionist propaganda against the L.A.R. and referred to American claims that "we are against peaceful resolutions in the Arab region, we intend destruction of Isrealis and that we are a state of war [as received] and aggression".

Colonel al-Qadhdhafi indicated that American attempts with some Arab countries are aimed at the perpetuation of the Zionist racist occupation and elimination of the Palestinian people's right to return to their homeland.

The L.A.R. has closed this door and will never participate in such a movement which has (?normal) direction towards peace.

Colonel al-Qadhdhafi, in his address to the international seminar called for the return of Jews immigrating to Palestine after 1947 to the countries they came from.

NORTH AFRICA

He expressed the L.A.R.'s readiness to accept the return of Libyan Jews.

In this case, when the Jews return to their original countries, the L.A.R. accepts the word of peace and its talks and acts on the pathway of peace, and, eventually, we shall find ourselves in the direction of the right way leading for peace, the revolution leader said.

Colonel al-Qadhdhafi asserted that the L.A.R. is still standing at the gate of peace because we are genuine supporters of peace and do not call for war for the sake of war.

The racist Zionists who are calling for war have closed the door of peace by refusing the repatriation of the Palestinian people and simultaneously they refuse to return to the countries they emigrated from, and this is why the Palestinians are obliged to fight.

Colonel al-Zadhdhafi concluded by welcoming the establishment of a secretariat or a permanent bureau in the L.A.R. for the international seminar on Zionism and racism.

Uganda Official Speaks

Kampala Domestic Service in English 1700 GMT 26 Jul 76 LD/EA

[Text] The deputy managing director of the "Voice of Uganda," Mr Omer Nasir, heading a Uganda delegation to the international symposium on Zionism and racism in Tripoli, has expressed the hope that the symposium will leave no stone unturned to see to it to justice for the barbarism and inhuman attack on Entebbe. [sentence as heard]

Mr Omer Nasir, who was outlining in detail the event connected with the French airbus since it was hijacked to Entebbe until the barbaric invasion of the airport by Zionist Israel, said it was Uganda's earnest wish that some of her sister nations will in future refrain from such clandestine collaboration. He said that it was unfortunate that, despite efforts by some Third World countries to fight the evils of imperialism, racism and Zionism some nations are frustrating such efforts by allowing our enemies to use their oil in all sorts of ways. He said our peoples' problems cannot be solved by forces of imperialism, racism and Zionism. Adding that our peoples' problems can only be solved by the peoples of Africa, the Arab world and the Third World.

Africa, he observed, regards the Organization of African Unity in the highest esteem, but expressed regrets to see that we are the same people to turn our backs to many of its important resolutions. Citing many of the OAU resolutions which some member-countries had violated, Mr Nasir said the OAU condemns trade with South Africa but some countries trade with it. The OAU denies relations with Israel but some of its member-states are Israel's close collaborators. He also wondered why some African states decided to participate in the Montreal Olympics when the OAU condemned participation by any member-state in events where racists and their friends are represented.

Referring to the malicious attacks by the British Parliament and the British press on Uganda, Mr Nasir appealed to the mass media in the entire Third World to avoid promoting foreign interests but to work for the enhancement of the interests of their people.
